ABOUT ME

I'm a multidisciplinary developer based in Braga, Portugal. I graduated in Software Engineering from University of Minho and I've been working with Frontend since then. I love sports, traveling, reading, and I'm passionate about everything tech-related.

PROFESSIONAL AFFILIATIONS & ACTIVITIES

Trainline,
Front-End Developer (Contract)

Worked in multiple teams, from Content Rate Optimization to booking management. Mainly with React and TypeScript.

2020 – present

Mindera,
Front-End Developer

Working as a FE Software Engineer with clients. Helping in the recruitment process with FE technical interviews.

2020 – present

Pixelmatters,
Front-End Developer

Mainly working in the development of web applications and websites in various business domains.

2018 – 2020

EDUCATION

Universidade do Minho, Braga, Portugal

- M.S in Software Engineering   Sep 2017 – Nov 2019
  - Area 1: Intelligent Systems (Artificial Intelligence)
  - Area 2: Software Systems Engineering (Web Engineering and Software Design)
- B.S in Software Engineering   Sep 2014 – Jun 2017

RESEARCH EXPERIENCE

Departamento de Informática, Universidade do Minho

- M.S Student, Informatics Department   Feb 2018 – Jul 2018
  - 4th year project: Search of correlation trajectories between functional MRI data
  - Supervisors: Prof. Victor Alves (Algoritmi) and Dr. Nicolás Lori (ICVS)
  - Focus: machine Learning, data mining, data analysis
- Master Thesis, Informatics Department   Sep 2018 – Dec 2019
  - Building a research platform for brain connectivity data
  - Supervisors: Prof. Victor Alves (Algoritmi) and Dr. Nicolás Lori (ICVS)
  - Focus: bioinformatics, machine learning, data analysis

PUBLICATIONS

Building an imagining-based research platform for the implementation of experiments with brain connectivity data, See Publication

LANGUAGES

- Portuguese: Native language.
- English: Fluent (speaking, reading, writing).

SKILLS	
	- **Languages:** JavaScript, HTML/CSS, Bash, Python
	- **Concepts:** RESTful API Design/Integration, MVC Architecture, DevOps
	- **Tools/Environment:** Node.js, Docker, Git, Webpack, Sass, CircleCI, GitHub Actions, TeamCity, AWS
	- **Frameworks/Libraries:** React, Jest, NextJS
	- **Data:** SQL (MySQL, PostgreSQL), MongoDB, GraphQL
	- **Testing:** Unit, integration, and end-to-end testing

INTERESTS   Solving problems, Software Engineering, photography, reading, traveling, sports.

OPEN SOURCE PROJECTS

- **rgllm.com**my personal website and blog which I built using NextJS
- **Awesome Portugal Data:** a repository of portuguese open data and open APIs
- **serverless-portuguese-utils**A set of useful utils to validate Portuguese data using Cloudflare Workers
